TESTIMONIAL

In recent months, I have had the opportunity of working with Ms Jane Wei who is based in Canada, and working as a Chinese Patent Attorney dealing with China patent related services.

My assignment to Ms Wei was in connection with the translation and filing of my Patent Application in China.

The English version of the complex PCT Document pertaining to my bespoke IT invention was very competently translated to Mandarin by Ms Jane in record time. Further, she facilitated all filings with the China Patent Office before due date, through her associates Office in Beijing.

Ms Jane Wei is a very committed, trustworthy and sincere professional, and ensures on time performance following very high linguistic and ethical standards. The services provided by her Associate Firm are also very satisfactory.

I would whole-heartedly recommend her translation and patent office related services to any corporate or inventor desirous of top quality Patent filings in China.

On a scale of 10, I would rate Ms Wei at 9.50, all things considered. And I am known to be a very strict task master.
